### TRAINING OF THE MONTH ORAL CARE

Since the outbreak of COVID-19, there has been a significant increase in the number of people talking about the problems they face when trying to get an NHS dentist appointment, suggesting that the impact the pandemic has had on dentistry has been particularly acute. Careline can now offer specific training on how to deliver and maintain oral hygiene which is particularly important whilst people are struggling to access dentists. You can also find some useful information on the NHS website regarding oral healthcare.

If you would like to discuss this training further please give Lorraine a call at the office or [email her](#).

**Please make sure that if you are taking a weekly COVID-19 test you let the Careline office know the results so that we can keep this information for our records!**
