Why is training so important?

As you are all aware, Careline as an organisation has committed to ensuring all staff have a minimum of four pieces of mandatory training: First Aid, Safeguarding, Health & Safety and Infection Control. In addition to this we support many services and 1:1 clients that require additional more specific training which we provide free of charge.

Clients want to book staff that have the training they require to stay compliant so it is imperative that your training stays up to date.

In recognition of this fact, Careline have a dedicated department who's primary purpose is to focus on training and ensure compliance. Every member of staff is tracked and approached to complete their training well in advance of any expiry dates so if the training team contact you please ensure that you complete the training immediately so there are no gaps in your training profile.

If you would like to discuss this further please call the office or [email Lorraine.](#)

HIDDEN disabilities

Not all disabilities are visible – some are hidden and not immediately obvious. Wearing the Hidden Disabilities Sunflower discreetly indicates to people around you that you have an invisible disability and that there are some circumstances where you may not be able to wear a face covering. If you are exempt from wearing a face covering please contact the Careline office so that we can carry out a risk assessment for our records.
