Covid-19 reminder: Recently some of our staffing team have tested positive for Covid-19, we would like to take this opportunity to remind all staff the current government advice surrounding Covid-19. Standard Infection control measures should be observed at all times, this includes hand hygiene, opening windows, cleaning all equipment and surfaces, PPE, up to date with vaccinations and follow the 'catch, bin it, kill it' policy. Symptomatic staff should treat as they would with other illnesses which would be to stay away from work until they feel better. Covid-19 tests are no longer freely available, except in special circumstances, staff do not need to test for Covid-19. If you do test and are positive for Covid-19 you should stay away from work for a minimum of 5 days from the start of symptoms. After 5 days, you can return to work providing you feel well in yourself. Staff are not routinely required to wear masks, however if you are supporting an individual with symptoms of any ARI you should be following PPE advice and be wearing a mask.

We encourage all staff to register their DBS on to the government update service. The update service has several benefits for the DBS holder as well as Careline. Registering your DBS on to the update service is quick and easy and costs £13.00 a year, the key benefits include not having to pay for a whole new DBS each year, The DBS also becomes portable meaning it can move between employers and services. For Careline it makes our DBS yearly checks easier and quicker as we are able to log on and do a status check each year.

Did you know you can buy your training certificates? If you have done any training with Careline all your certificates are available to purchase. Certificates are £4.50 each. If you would like to purchase or would like more information please contact your usual point of contact at Careline and they will be able to help.

Our staff of the month is.....
PETRA POOL!
Petra is a valued member of our Nursery Practitioners team. Petra has been with Careline since 2022 and has since gone on to consistently receive good feedback from the Nurseries she supports. From all at the Careline office, a big THANK YOU to Petra for all your on going hardwork.

Do you have a friend that works in a Nursery during term time only? We welcome Nursery practitioners that wish to join us for the holidays. If you recommend a friend you also earn £100 as a thank

With Makaton awareness day at the end of August the organisation we would like to put the spot light on is Makaton aware.

Makaton Aware is an innovative initiative committed to breaking down communication barriers and ensuring that everyone feels valued and understood. They aim to establish a network of inclusive spaces, including businesses, community settings, visitor attractions, and everyday services where individuals of diverse backgrounds can thrive. It's ideal for those looking to promote inclusivity without the need for extensive training. Their vision is simple: to build a community where everyone's voice is heard and understood. Through Makaton Aware, we aim to promote inclusivity, empower individuals, and foster meaningful connections.

Lets get social! Careline is on Facebook and Instagram!
Find us on Facebook - Careline The Agency Care Staff
